Laboratory Update:

Aetna

HIGHLIGHTS

-Effective August 1st 2018

aetna[®]

"Committed to Excellence"

We have worked very diligently to establish Lenco as a quality, world-class laboratory that genuinely cares about our physicians and their patients. We appreciate the confidence and trust that your practice has shown by choosing Lenco as your clinical reference laboratory, and look forward to serving your practice now, and in the future.

In addition to the existing, extensive listing of HMO's, PPO's and conventional insurance plans we currently accept, we are pleased to announce that as of August 1, 2018, Lenco has been selected as a national, in-network, preferred lab provider for the following:

- **Aetna Inc.**

This company has recognized the level of commitment, professionalism, and technical expertise that we bring to everything we do. By asking us to become an In-Network Preferred Provider, the company has proven what you, our loyal clients, already know; that Lenco is the premiere choice for clinical laboratory services.

If you have any questions about this important change, or any other provider information, please don't hesitate to contact your representative or our Client Service Department at 718-232-1515, Ext 9. Once again, we thank you for your friendship, and your trust.

Best Regards,
